

Non-Invasive Ventilation and Weaning: Principles and Practice

edited by Mark Elliott, Stefano Nava and Bernd Schonhofer. ISBN: 9780340941522. Hardcover (648 pages). Hodder Arnold Publication: London, UK, 2010

Table of Contents

PART I EQUIPMENT AND PRACTICE 1

1 Non-invasive ventilation: from the past to the present 3
Dominique Robert, Barry Make

Section A The equipment 11.

2 Positive pressure ventilators 13

Dean R Hess

3 Negative pressure ventilation 24

Antonio Corrado, Massimo Gorini

4 Continuous positive airway pressure 30

A Craig Davidson

5 Emerging modes for non-invasive ventilation 36

Paolo Navalesi, Rosanna Vaschetto, Antonio Messina

6 Interfaces 42

Cesare Gregoretti, Davide Chiumello

7 Quality control of non-invasive ventilation: performance, service, maintenance and infection control of ventilators 53

Jordi Rigau, Ramon Farré

8 Humidifiers and drug delivery during non-invasive ventilation 61

Antonio M Esquinas Rodriguez

9 How to start a patient on non-invasive ventilation 70

Raffaele Scala, Martin Latham

Section B The practice: acute non-invasive ventilation 85

10 How to set up an acute non-invasive ventilation service 87

Alicia K Gerke, Gregory A Schmidt

11 Monitoring during acute non-invasive ventilation 97

Eumorfia Kondili, Nektaria Xirouchaki, Dimitris Georgopoulos

12 Troubleshooting non-invasive ventilation 107

Nicholas S Hill

13 Timing of non-invasive ventilation 118

Stefano Nava, Paolo Navalesi

14 Why non-invasive ventilation works in acute respiratory failure 126

Miguel Ferrer, Antoni Torres

Section C The practice: chronic non-invasive ventilation 139

15 The chronic ventilator service 141

Jean-François Muir, Antoine Cuvelier

16 Diagnostic tests in the assessment of patients for home mechanical ventilation 151

Patrick Murphy, Michael Polkey, Nicholas Hart

17 Patient and caregiver education 167

Ole Norregaard, Joan Escarrabill

18 Discharging the patient on home ventilation 174

Joan Escarrabill, Ole Norregaard

19 Telemedicine 184

Michele Vitacca

PART II THE DISEASES 193

Section D COPD 195

20 Pathophysiology of respiratory failure in chronic obstructive pulmonary disease 197

Paul P Walker, Peter M A Calverley

21 Treatment of chronic obstructive pulmonary disease: acute and chronic 206

Borja G Cosio, Roberto Rodríguez-Roisin

22 Non-invasive ventilation for acute exacerbations of chronic obstructive pulmonary disease 217

Alexandre Demoule, François Lellouche, Jordi Mancebo, Laurent Brochard

23 Non-invasive ventilation in chronic obstructive pulmonary disease 228
Enrico M Clini, Ernesto Crisafulli, Nicolino Ambrosino

Section E Hypoxaemic respiratory failure 237

24 Pathophysiology of hypoxaemic respiratory failure 239

Luke Howard

25 Home oxygen therapy in chronic respiratory failure 245

Jadwiga A Wedzicha, Christine Mikelsons

26 Acute oxygen therapy 251

Mark Elliott

27 Equipment for oxygen therapy 260

Daniel Schuermans, Lies Verfaillie

28 Non-invasive ventilation for hypoxaemic respiratory failure 268

Massimo Antonelli, Giuseppe Bello

Section F Cardiac failure 275

29 Pathophysiology and modern management of cardiac failure 277

Martin R Cowie, Paul M Haydock

30 Acute cardiogenic pulmonary oedema 289

Alasdair J Gray

31 Assisted ventilation in chronic congestive cardiac failure 307

Matthew T Naughton

Section G Neuromuscular disease 319

32 Muscle disorders and ventilatory failure 321

David Hilton-Jones

33 Pathophysiology of respiratory failure in neuromuscular diseases 331

Franco Laghi, Hameeda Shaikh, Gokay Gungor

34 Slowly progressive neuromuscular diseases 340

Joshua O Benditt, Louis Boitano

35 Amyotrophic lateral sclerosis 351

Stephen C Bourke, G John Gibson

36 Duchenne muscular dystrophy 361

Anita K Simonds

37 Central sleep apnoea 368

Patrick Lévy, Jean-Christian Borel, Renaud Tamisier, Bernard Wuyam, Jean-Louis Pépin

Section H Chest wall deformity 377

38 Scoliosis 379

William J M Kinnear

Section I Obesity 389

39 The endocrinologist and respiratory failure 391

John P H Wilding

40 Pathophysiology of respiratory failure in obesity 399

Francesco Fanfulla

41 Non-invasive ventilation in acute and chronic respiratory failure due to obesity 408

Juan F Masa, Isabel Utrabo, Francisco Javier Gómez de Terreros

Section J Other conditions 419

42 Bronchiectasis and adult cystic fibrosis 421

Irene Permut, Gerard J Criner

43 Non-invasive ventilation in highly infectious conditions: lessons from severe acute respiratory syndrome 427

David S C Hui

44 Cancer patients 433

Pieter Depuydt, Elie Azoulay, Marcio Soares, Dominique Benoit

45 Non-invasive ventilation in the elderly 438

Erwan L'Her

46 Post-surgery non-invasive ventilation 446

Samir Jaber, Boris Jung, Gerald Chanques

47 Trauma 454

Umberto Lucangelo, Massimo Ferluga

48 Role of non-invasive respiratory support after spinal cord damage 459

John W H Watt

Section K Paediatric ventilatory failure 467

- 49 Equipment and interfaces in children 469
Brigitte Fauroux, Bruno Louis, Frédéric Lofaso
- 50 Chronic non-invasive ventilation for children 475
Brigitte Fauroux
- 51 Non-invasive positive pressure ventilation in children with acute respiratory failure 483
Giorgio Conti, Marco Piastra, Silvia Pulitanò

Section L Special situations 489

- 52 Bronchoscopy during non-invasive ventilation 491
Massimo Antonelli, Giuseppe Bello
- 53 Non-invasive ventilation in pregnancy 496
John M Shneerson
- 54 Tracheostomy 499
Piero Ceriana, Paolo Pelosi
- 55 Non-invasive ventilation in end-of-life care 508
Laura Evans, Mitchell M Levy

Section M Prolonged weaning 513

- 56 Epidemiology and cost of weaning failure 515
William B Hall, Shannon S Carson
- 57 Pathophysiology of weaning failure 521
Eleni Ischaki, Theodoros Vassilakopoulos
- 58 Non-invasive ventilation for weaning and extubation failure 530
Scott K Epstein
- 59 Weaning strategies and protocols 543
Michele Vitacca
- 60 Specialized weaning units 550
Aditi Satti, Gerard J Criner, Bernd Schönhofer

Section N The physiotherapist and assisted ventilation 557

- 61 Respiratory physiotherapy (including cough assistance techniques and glossopharyngeal breathing) 559
Miguel R Gonçalves, João Carlos Winck
- 62 Rehabilitation 568
Rik Gosselink, T Troosters, J Segers, C Burtin

Section O Outcome measures 579

- 63 Health status and quality of life 581
Wolfram Windisch

Section P The patient experience of non-invasive ventilation 591

- 64 Psychological issues for the mechanically ventilated patient 593
Linda L Bieniek, Daniel F Dilling, Bernd Schönhofer
- 65 Reflection on our times with a resident 'Nippy' ventilator 599
Michael and Alyson Lindley
- Index 601

PART III APPENDICES* 623

- Appendix A Invasive respiratory muscle studies 625
Patrick Murphy, Michael Polkey, Nicholas Hart
- Appendix B Weaning strategies and protocols 632
Michele Vitacca
- Appendix C Exploring the option of a trach 638
Linda L Bieniek
- Appendix D Ventilator guidelines for emotional health 646
Linda L Bieniek
- Appendix E Michael and Alyson Lindley's photo album 657

*These appendices are available only in the Vitalsource ebook edition.
